

# PRIVATE PRACTICE CONSULTING

Transform your vision of  
a thriving private practice  
into a reality.

# WANT TO LAUNCH A PRIVATE PRACTICE BUT DON'T KNOW WHERE TO START?

I've been there too. And trust me  
when I say that you're not alone.

Let's work together to create the  
practice of your dreams...

## ACKNOWLEDGE YOUR FEARS

As a therapist, you know how paralyzing fear can be. It spins a lot of narratives about what is and isn't possible.

Before we launch head first into all the practical (and fun) details, let's first acknowledge the fears you might have about launching your own practice.

Name each fear about starting or growing your practice, and give yourself permission to voice the ones that have been holding you back.

## RE-WRITE THE NARRATIVE

The stories we tell ourselves are powerful, so it's important that we are telling ourselves the right story. Together, we'll be writing the story of your practice, not based on your fears, but according to your highest hopes and dreams. It will take commitment and hard work, but I have a feeling you already know you can do hard things!

# CONSULTATION FEATURES

1

Bi-weekly 60-minute (or monthly 90-minute) coaching calls for three months.\*

\*On these calls we will identify your mission statement, brand pillars, ideal client and so much more that will help set your practice apart from the rest!

2

A roadmap with everything you will need to establish, launch, and sustain a successful private practice.

3

My Vendor Resource Guide filled with the best web designers, photographers, and social media pros who will help you create a thriving online presence for your private practice.

4

Quarterly check-in calls to help bolster and rally alongside you and your new practice!
